Professional Summary

Data Analyst with hands-on experience in Python, SQL, Power BI, and exploratory data analysis (EDA). Skilled in data cleaning, ETL pipelines, dashboard development, and translating complex datasets into actionable business insights. Proven ability to automate workflows and improve data accuracy at scale.

Technical Skills

Programming Languages: Python

Data Visualization: Power BI

Databases: MySQL

Data Concepts: Data Cleaning

Web Technologies: HTML5, CSS3, JavaScript (Basic)

Tools & Platforms: Excel, GitHub

Work Experience

Traffic Video Analyst | World Data Traffic Tech Pvt Ltd.

Feb 2026

- **Traffic Video Extraction & Classification:** Analysed multi-lane CCTV and drone video footage to accurately extract Turning Movement Counts (TMC) and classify vehicle categories, consistently meeting daily targets with over 98% accuracy.
- **Data Processing & Quality Control:** Digitized, validated, and structured large-scale survey datasets using MS Excel and internal logging software, performing quality audits to resolve discrepancies and ensure error-free client reports.

Data Science Intern | Palle Technologies

Jan 2025 – May 2025

- Cleaned and analysed datasets of 50,000+ rows using Python (Pandas, NumPy), improving data accuracy by 30%.
- Automated data preprocessing pipelines, reducing manual processing time by 25% and improving overall efficiency.
- Performed EDA and built visual reports in Power BI and Matplotlib to generate actionable business insights for stakeholders.
- Developed ETL workflows to streamline data ingestion and transformation processes.

Web Development Intern | Lady Bird Web Solutions Pvt. Ltd.

Jun 2024 – Aug 2024

- Designed and developed responsive web pages using HTML5, CSS3, and JavaScript, improving mobile usability.
- Enhanced website layout and styling, reducing bounce rate and improving user engagement metrics.

Projects

Student Attendance Management System

2025

- Built an automated attendance system with QR code scanning for real-time check-in tracking.
- Designed an intuitive interface to monitor and manage attendance records, reducing manual workload by ~40%.
- Improved tracking accuracy and generated weekly attendance reports using Python and MySQL.

Sales Data Analysis Dashboard – Power BI

2024

- Created interactive Power BI dashboards to track KPIs, revenue trends, and regional performance metrics.

Education

B.Tech – Artificial Intelligence and Data Science

2021 – 2025

Jayalakshmi Institute of Technology, Thoppur | CGPA: 7.89 / 10

Certifications

Oracle Cloud Service Management & Networking Essentials Naan Mudhalvan	2024
Machine Learning Workshop (30 Days) Pantech Prolabs	2024
Soft Skills Development UNXT by Unnati Foundation	2024

Achievements & Awards

- Leadership Award – Technical Symposium Coordinator, Jayalakshmi Institute of Technology (JIT)
